WASHINGTON, D. C., June 27 .- Senator Dubois, of Idaho, has returned from the convention of the Republican League Clubs at Cleveland. He was one of the leaders of the fight made there for a declaration in favor of silver, and having acted as a member of the committee on resolutions is competent to speak on the purport of the netion of the convention. He takes exception to some of the reports sent out from the convention as to the effect of the course pursued with reference to the silver question, and in discussing the matter to day said:

"It is very anusing to read some of the press reports of the convention. Take, for instance, the representation that the silver men were in favor of the "address to the people," of which so much has been said, and that the gold her were appeared to the the some much has been said, and that the gold men were opposed to it. In this representation it is claimed that the gold advocates insisted on a declaration regarding the currency question if the league should pronounce upon any subject, and that the silver men add not want any declaration regarding the currency.

want any declaration regarding the currency.

"Every one who was at Cleveland knows that this is an utter perversion of the facts. The silver men met before the committee, on resolutions was appointed, and instructed Colonel Trumbo, of Utah, to offer a straight silver resolution and arceed unanimously that they would demand a plain and unequivocal deflaition from the corrention as its position on the currency question. They insisted that the question should not be ignored. In accordance with these instructions, Colonel Trumbo presented a free silver resolution in the convention, and it was referred to the committee on resolutions. The sub-committee of eleven, after many The sub-committee on resolutions. The sub-committee of eleven, after many hours of wrangling, by a vote of 9 to 2, agreed to report the "address to the people." The silver men on the sub-committee, of whom I was one, Mr. Allen, of Utah, being the other, brought in a minority report against the address, and the silver men, unanimously and with creat men, unanimously and with great vigor, fought the adoption of the revixor, fought the adoption of the report before the whole committee, finally defeating it by a unanimous vote and substituting the Patton resolution declaring against any declaration on the subject. The silver men wanted and insisted on a declaration in regard to silver and took the position in the beginning and maintained it to the end that the convention should take a position either for or against silver. They stated repeatedly that if any public questions were touched upon in the platform, if the platform of '92 were endorsed, if the leaders of the party were endorsed, or if anything of any political nature was attempted, they would take nature was attempted, they would take their fight to the floor of the conven-tion and there demand full debate and a clean expression on the financial ques

"The opponents of silver finally agreed to compromise by utterly ignoring everything which looked like politics and by declaring that under pointes and by declaring that under the constitution of the league they were debarred from giving expression to any views. The silver men in ade no objec-tion to this course, as they were entirely willing to leave the matter open until the meeting of the national convention, where of course the issue must be squarely met." squarely met.

Concluding Senator Dubois said: "There were strong free silver man in almost every delegation present and the silver men generally were well pleased with the manifest growth of sentiment for the restoration of silver shown by the number of silver alwocates who were there as delegates from every section of the country." tion of the country."

the afternoon the crowd was increased by many hundreds.

It was the largest class (26) that Franklin college ever graduated and the many friends and patrons of the institution took great interest in this culminating plory of her success.

The performers all acquitted themselves honorably, and showed marked signs of literary training and frare ability. The address of Hon. John A. Bingham was listened to with much appreciation, and the fact of this distinguished statesman being an alumnus of the institution added double worth to his remarks.

Called for by Emperor We ham at the Bau-quet on the New York. Kitz, June 27.—The dinner given by

Admiral Kirkland and the officers of the United States craiser New York to Emperor William was a very successful affair. The arrival of Emperor William and his party on board the New York was the signal for vociferous cheering. Admiral Kirkland toasted his majesty and in doing so thanked him for the reception accorded to the United States warships at Kiel. In reply, the emperor requested Admiral Kirkland to convey his thanks to President Cleveland. for requested Admiral Kirkland to con-yey his thanks to President Cleveland for sending the United States squadron to take part in the celebrations in honor of the opening of the Kaiser Wilhelm canal and expressed himself as being highly gratified at the fact that the Americans were pleaded with their vist. College Forgeries.

Chicago Tribune. The current commencement season has developed one feature which is not very encutraging in its relation to the scholarly progress and standing of students and graduates. In two colleges of high position the practice of "skidstudents and graduates. In two colleges of high position the practice of "kidding has been discovered, skidding being the stealing of examination papers before examination. In another institution a professor was detected in self-ing examination papers to students. Forcery of graduation addresses has been uncovered in more than one commencement exercise. In one case a commencement exercise. In one case a commencement orator had the andicity to steal the address of another and deliberately deliver it on commencement day with the belief that the very andacty of the act would prevent exposure. The most remarkable revelation, however, concerns the business of a firm in Washington, D. C., which sends out circulars to students oldering to furnish them with literary productions of all kinds, and the exclusive use of them for a state tash.

out circulars to students oldering to furnish them with literary productions of
all kinds, and the exclusive use of them
for a stated sum. From the price list
it appears that original essays and debates range from 35 cents to 90 cents
per hundred words, according to style,
length, and nature of the subject, high
school orations and essays, S3 to S5;
college essays, orations and debates, S3
to S15; lectures, S10 and unwards. The
attention of the postofiles department
was called to the business, but it decided it could not prevent the firm from
using the mails. As the business is
said to have been exceedingly profitable
to the firm in question it goes without
saying that the sindents and graduates
must have liberally availed themselves
of the opportunities offered them by
this house at such reasonable figures. this house at such reasonable figures.

this house at such reasonable figures.

At the same time it does not speak well for college scholarship. On the othar hand, the number of these scandals which have come to light indicates that scholarship is retrograding, and the operations of the Wash ington firm will in the future cast a doubt upon the sincerity of commencement eloquence. It would be interesting to learn from the books of this firm how many young gentlemen fauned in the college records for their achievements at foot ball and base ball and other forms of athietics are patrons of the accommodating Washington phople who grind out essays and speeches at so much a yard.
